

Jose Villalobos

As Chief Information Officer, Jose Villalobos is charged with primary handling of all Information Technology oversight and is involved in the firm's technical road monitoring, as well as planning and over-all training as new technologies are implemented. Jose has almost 30 years of experience in IT, which has included installation and maintenance of network systems throughout the span of said years. These networks systems encompass everything from LAN and WAN configurations, and have been integrated with cost recovery programs, disaster recovery plans and on multiple platforms, which include on-prem and Cloud solutions.

Jose has an associate degree from Long Beach City College and has completed several Microsoft Certifications, including an MCP and MCSE.
